From the Santee region we cannot as yet present a summary of general reports, but the accounts received from important points are conclusive beyond any doubt as to very heavy loss—the sait water prevailing four feet over the highlands in some place. The permanent injury to plantations will be less than on Cooper River, but the loss of crops must be severe.

On lower Pee Dee at the same points marked, the flood tide was not as high as the great freshed of 1833. In some cases also the cut rice had been harvested and gathered in. Considerable losses are nevertheles to be apprehended.

C. These are in general conficuation of what had been previously heard from these regions. At Georgetown the floot-tide of the 8th was reported as fully up to the high tide of 1822, which was so destructive in that region. At Bluffton, S. C., the excess ever the highest spring-tides previously marked, was estimated at three feet, and the gale itself is compared by the ablest observers, only to that of 1804, as to violence—the late one being far greater in duration.

CITY ITEMS.

SUSSHINE -Glorious sunshine of autumn. The golden days of falling leaves, when the earth, the air, the sky, are all glowing in beauty-the beauty of American sunshine. Such are the days of the present term-not the "heated term," but the term of clear, sunny days and cool nights, when two coats are comfortable at sunrise, one half-way to noon, and none at meridian. In the morning we bask in the warm rays that come reflected from bright brick walls. At noon we creep along in their shade. As the sun goes away to the west we welcome the east side of the street, and fairly wanton in delight of sunshine, and so does every living thing of animated life. For two months yet it will be the only source of warmth for thousands of those who have no home, and other thousands who have the home but cannot afford the fire. All winter long a great many wanderers of city streets will welcome every sunny day like the present, for they have no home, no fire, no welcome around the hearth-stone of any friend-no warm friend but the sun. Out in the country bow the unsheltered sheep and kine will creep along the sunny side of the barn, board fence or stone wall. How all creation does, should, will, thank the Creator for sunshine such as gilds with gold the hills, trees, fields, roads, streets, house-tops, and all we look upon. All is glorious sunshine.

AMUSEMENTS .- The various Theaters and Concert Halls are now in winter trim, and under pretty good headway for a successful season. Last week nearly every house was regularly full, some being densely crowded every night, though the attractions were by no means extraordinary.

At BURTON's a tearful comedy called "Sunshine "Through the Clouds" has been produced with marked success. The acting of Mr. Fisher was most excellent, while Miss Saxon and Miss Raymond were both good. If Mr. Fisher does all old men as well as he portrayed "Old Sandford," the public would like to see him often in that line. A broad farce called "The Fillibusters," was another novelty; not very smart, but funny on account of Burton's always comical faces, and the atrocity of doing him up as a woman. Mr. Burton has reduced his prices somewhat-a performance always popular with the people. To night he will bring forward "Now-a-Days," a new American comedy, from the book of that name. Mr. B. is in the cast, with other prom-

inent members of his company.

At the BROADWAY, Mr. Forrest has played several of his old characters, and will do the same this week. By the way, when is Mr. F. going to give the public was made a year ago. Of course, the house has been full to overflowing. To night, "Othelle," with Mr. Conway as "Iago." Tuesday, "Jack Cade;" Wednesday, "The Gladiator;" Thursday, "Hanlet."

Mr. Forrest will give place to the English Opera, by

Louisa Pyne and Mr. Harrison.
At Wallacks, Mr. Brougham has put forward a new Comic Drama called "My Cousin German." We have not seen lt, but it is well spoken of. Mr. Wallack appears this evening in his inimitable perform ance of "Erasmus Bookworm" in "The Scholar." Tuceday, "Much Ado," with Wallack as "Benedick. Wednesday, "Spring and Autumn." Thursday, "Wild Oats," Wallack as "Rover." Planchis's new comedy, "Knights of the Round Table" is in prepa-The Violet, or Napoleon's Favorite Flower will soon be represented, Mr. Wallack taking his original character of "Andre, the Diamond Cutter." The prices at this house are now the same as last

At NIBLO's the Ravels produced last week a new pantomine, "Asphodel, or the Magic Pen," full of the surprising tricks which the Ravels only can do, and showing some very beautiful scenery and mechanical changes. It has filled the house thoroughly every night, and will continue to do so this week. M'lle Yrka Mathias also appears every night in ballet. "Giselle." We hear that To-night " Asphodel" and Mr. Niblo is now on his way to Europe to engage arlists of the first order for the spring season. On Sat tirday night, at this house, there will be a benefit for the family of Mr. Nichols, late Editor of The Sunday Mercury, whose melancholy death we recorded last Tuesday. A number of leading artists have already

At the METROPOLITAN, Miss Dean and Mr. Eddy have sustained the burden of the work, and drawn good houses. The house is excellently adapted for eye and ear, and with its roomy lobbies and superior ventilation is one of the pleasantest in the country. To-night the old play of "The Gamester" will be given by Julia, Mr. Eddy, and Mr. Pope, who makes his first appearance here. Mrs. Melinda Jones also Agnes de Vere." The Rousset girls contheir ballet performances, which have given

general satisfaction. At the NATIONAL, "Fashion and Famine" has drawn full houses, and is still on the bills. Not hav-Ing seen it, we are in the dark as to its quality. A new drama, "Eustache, or the Condemned," was brought out on Saturday, Mr. Scott playing the hero. A drama, compounded from "Easy Nat," is in preparation. If some tolerable degree of ventilation

At BARNUM a also, "Enstache" is to be produc s evening, Mr. Clarke as the "Condemned." The Kook children have been received with favor, and continue this week. Aside from the wilderness of curiosities always to be seen here, there will be every afternoon amusing light pieces in the Lecture Room.

The HIFFORDME will be occupied this week by the great Southern Circus Company, embracing Mile Marie, the equestrenne; Sig. Felix Cane, the trick clown, and other distinguished performers. The usual Hippodrome entertainment will be given this evening, in addition to the performances of the Circus

At WOOD'S MINSTREL HALL, the burlesque "Rob-'ert Macaire " has elicited the most extravagant explosions of laughter. It is to be repeated this week. To-night will be added the "Rochester Knockings," also a comic extravaganza of great popularity.

At Buckley's "Lucrezia Borgia" highly colored will be played through the week, in accordance with popular demand. There will also be a variety of melodies and comicalities of the true Ethiopian stamp. THE CRYSTAL PALACE presents several new at tractions, not all of the \$2,700 shawl stamp, but

equally interesting and far more useful. The time for closing is drawing near, and those who have not been there should embrace the earliest moment to do so. BRYAN'S GALLERY of Christian Art presents the usual attractions for lovers of the fine arts.

Among the occasional entertainments we notice the FESTIVAL OF THE ROMAN CATHOLIC ORPHAN ASY. LUM at Castle Garden on Tuesday evening. The object should attract a large crowd, and the performance will warrant the belief that such will be the fact. Seekers for entertainment and amusement will find from day to day in the advertising columns of THE TRIBUNE the fullest information of the movements of those who cater for the people in that line.

GRISI AND MARIO.-The opera of I Puritani will be produced to-night at Castle Garden for the first time with the company now performing there. The part of Arture by Signor Mario affords him the best opportunity, thus far, for showing his qualities. A w baritone, Signor Cuturi, will do the part of Ri-

The Rev. Messrs. Sawyer and Wescott are to discuss the question of Eternal Punishment, at the Tabernacle, commencing on Tuesday evening.

I'M A LAWYER.-We had always considered the character in the play of Uncle Tom's Cabin, who frequently says "I'm a lawyer," as a fictitious one, until Saturday, when we were waited upon by the original, complaining of his name being reported in the proceedings of a meeting of the Temperance Alliance.

The point of grief was, that we had made it known that he was a temperance man, greatly to the injury of his business. Because, says he, "I'm a lawyer, and temperance men don't employ me, and as soon as it is known that I take part in temperance meetings, I shall not be able to get any clients. I particularly requested the reporter not to print my name. If I am to be reported every time, I shall take care not to attend any more temperance 'meetings.'

We respectfully suggest to this individual and others like him, that the best thing he can do is to stick to his trade and leave temperance entirely alone.

MILITIA FINES .- One of the Sunday papers says: There seems to be some misunderstanding relative to the militia law, particularly concerning those persons who are except from its provisions. The law or 1854 expressly declares that "the Assessors shall determine who are exempt, or not liable to do 'military duty;" they are required, also, "to make a certificate list of the names of all persons whom they shall determine to be exempt, and shall file "the same in the office of the clerk of the city, town, or ward, where they reside, for the future examina-"tion and guidance of the Assessors." Consequently, if the Assessors do their duty, those who are exempt and notify the Assessors need not again be troubled about militia duty. The law also directs the Commissioners of Jurors to provide a register in which shall be entered the names of persons exempt by law from military service in the City of New-York; but, as it appears from the law, the proceedings in the latter case are the same as required before the Assessors, and are of no greater benefit to those who are exempt.

NEW-YORK POST-OFFICE .- The account of the New-York Post-Office for the fiscal year ending 30th June, 1854, has been rendered to the Post-Office Dethe Post-Office Department, disbursements and payments into the Treasury, which amounted to \$1,265, 445 18. On the 11th inst. N. P. Freeman, Esq., the Cashier of the New-York Post-Office, paid a visit to the Auditor's office, when, on final adjustment and comparison of his account with that kept at the Au-ditor's office, a balance was found due the Government of \$12,460 77, without the disagreement of a cent.

MILITARY.—The Independent Boston Fusileers, Capt. D. Cooley, have completed the arrangements for their excursion to New-York and Jersey City, and

will leave on Friday, the 29th inst., via the Fall River route. They will quarter at the Florence Hotel, and return home on Wednesday morning, Oct. 4.

The U. S. Military and Naval Argus says that Capt. French of the La Fayette Fusileers has re-

Capt. John Gregory of Co. H., Governor's Guard, Sixth Regiment, has also resigned.

RELIEF OF THE SAVANNAH SUFFERERS .- A meeting of the Committee of Relief for the sufferers in Savannah was held Saturday afternoon, at the Bank of the Republic. It was reported that since the meeting of the committee on Wednesday last \$5,074 have been contributed, which, added to the \$4,668 raised before that time, makes the aggregate sum raised up to the present \$9,742-all of which has been, or will be immediately, forwarded for the relief

POOR LIGHT.—The police of the Twenty-second Ward report that the oil street lamps in Fortleth, Forty-first, Forty-second, Forty-third and Fortyfourth-sts., between Eighth and Tenth-avs., go out regularly every night about 11 o'clock. Some of those streets are quite bad enough, even if they were well lighted, for pedestrians to pass through.

A delegation from the American Settlement Co. will leave New-York for Kansas on Wednesday next, to be joined on their route by representatives from Pennsylvania and Ohio companies. .These are instructed to select a favorable location for a city in a good agricultural district. It is expected they will be followed in three weeks by the pioneer party of a hundred families or more, who will carry with them, at once, into the wilderness, all the appliances and elements of a long-established community.

GOVERNOR OF KANSAS. -Governor Reeder is now in this City, on his way to the new Territory. Some of the western people are getting impatient to have a look at him. We find the following in a St. Louis

paper:
"Where's Reeder?-The Evening News want's to know where's Reeder—he that is drawing pay as Governor of Kansas. The last heard from he was eating dinner in Pennsylvania, and toasting Forney, the toady of Forrest the actor. Perhaps Reeder is now attending the theater in the eastern cities, studying the great Forrest in the character of Kings,

Princes, Rulers—learning to wear his lefty honors and strut with the dignity that becomes a Governor in the West. The Nexts suggests that Resder don't know where he belongs, or he would certainly be at

his post. The News says:

"Is he. like the Administration that promotes him, so correspondy ignorant of western localities and western interests as not to know where Keness is? We make the subject of the new Territory that they hold a meeting and appoint a containing of squatters, who have a manufacture and appoint a containing of squatters, who have for subject a containing the squatters, who have fore the select to his new seems. We don't see how they are to get him unless they send for kim, and the square they do that the better."

DEATH OF EX-RECORDER SCOTT .- The late John B. Scott at East Hampton, L. L., last week, in the 64th year of his age. He formerly, and for nearly twenty years, occupied the reads. nearly twenty years, occupied the profita. then-of Judge of the Marine Court.

SUICIDE OF A MERCHAST .- At 9 o'clock yesterday morning Mr. John P. Ware, late a clothing merchant at No. 403 Broadway, was found suspended by the neck and dead, at his residence, No. 148 East Nineteenth-st. Deceased for many years carried on busabove location in Broadway. He made heavy shipments of clothing to California and lost largely by the operation, and was recently obliged to suspen payment. This preyed upon his mind and rendered him, at times, apparently insane, and during those occasions he had been heard to say that life was a burden to him. He occupied a room alone in his house, and was discovered by his wife yesterday morning suspended by a silk cravat to the bed post with his knees almost touching the floor. A physician was called in who pronounced him to be dead. Coroner O'Donnell held an inquest upon the body and the jury rendered a verdict of "suicide while in a de-'ranged state of mind." Deceased was a native of Virginia, 47 years of age, and leaves a wife and several children. He was much respected, and previous to his pecuniary troubles was remarkably pleasant and very fond of anecdotes.

SUICIDE BY SHOOTING .- Coroner Wilhelm yester day held an inquest at No. 8t Hammersly st. upon the body of Ludnig Klein, a native of Germany, 36 years of age, who committed suicide on Saturday afternoon by shooting himself through the head with a pistol. The deceased had been married for about a year, and during that time has been intoxicated almost every day. On Monday last, while in a fit of drunkeness he destroyed all his furniture, and threatened to shoot himself. His wife then left him and went to live with her father at the above number, where the deceased called on Saturday and again threatened to shoot both his wife and himself. He afterward asked to see his child, and when it was brought to him he drew a pistol from his pocket and blew his brains out. The jury of inquest rendered a

SMALL BOAT SWAMPED-THREE PERSONS DROWNED .- Yesterday afternoon between 3 and 4 o'clock, as a row boat containing seven persons (five males and two females) was crossing the North River opposite Sixty-fifth-st, when near the middle of the river, the boat was swamped by the swell of a steambont. Two young females named Bridget King and Eliza Brady, residing in the vicinity of Forty-seventhst and Eight-av., were drowned, together with a young man named George Mulder, residing in the Twenty-second Ward. Four of the men named Jacob Colye, Philip Smith, Edward Barrett, and a colored man named Anthony Johnson, were picked up by persons in a sail boat which happened to be near at the time of the accident.

Sergeant Downs of the Twenty-second District Police and others witnessed the swamping of the coat and the struggles of the occupants from the shore, and shouted to the crew of a large schooner to go to their assistance. Sergt. Downs could not ascertain the name of the schooner, but states that she passed within 100 yards of the drowning persons without rendering assistance. The bodies of the persons drowned have not been recovered.

We meant to have said, some days ago, that the Metropolitan Fire Insurance Company lost nothing on the fire in Broadway-in fact, they have not had any loss whatever thus far.

SUNDAY STREET-PREACHING .- The usual Sunday performances were enacted in the City Park yesterday, where the same persons who held forth on previous o casions again enlightened the assemblage upon the effect of foreign influence and the evils of popery. The meeting was quite small as compared with fo mer occasions of the sort. The proposition has been talked over for some months, and we understand is now likely to be accepted, so that by next summer there will be a rail unication to the Fort. There is no prospect of the Fort Hamilton House being rebuilt, and Mr. Gelson, the proprietor, is erecting an elegant private residence for himself upon the site of the old hotel. THE UNLICENSED LIQUOR DEALERS.—The Police bave been instructed to arrest all persons found self-ing liquor without license. One man in the Tenth ward gives his liquor to any one who wants it, but takes no money at the counter. The customers so disposed can go to a tobacco store some a sance from the place, and or

After him, Mr. John Rober, a German Catholic, well known in the Third Ward, got up and spoke in an excited manner in opposition or denunciation (as we were informed) of the first speaker. His remarks were loudly cheered several times, to which the special deputies demurred, and notified a number of persens to withhold their applause. Shortly after, however, the cheering was resumed, and the specials arrested six persons and conveyed them to the Third Ward Station-House, where they were locked up. Over a thousand people gathered around the Station-House and remained some time, but no disposition was evinced to attempt a rescue. Plaintiff is proprietor of a newspaper calted The
New York Detchmon. He brings unit against the owners of
omnibus No. 322 for alleged carelessness and mismanagement
whereby the stage ran against a handcart which was in the
street, containing a form, ready to be put to press for printing,
whereby the band cart was upset and the form sknocked into p! costs more for sorting than new type when se knocked

and is of little or no use except for old metal. He claims \$5.50
for injury to the type and the loss of advertisements for that
day's publication.

The owner of the hand-cart testified that he had been employed to take the two forms (that is, the form for each side of
the paper from No. 14t Fulton at, in the press, which is in a
building in another street; that he had placed the oan in quesition en the cait and reduced for the other, when the stage

after the fire, when he went to the office on a claim for the instrance.

On the part of plaintiff it was attempted to show that a custom exists by which such a request for insurance is binding upon the company, which was denied for defense; it being usual, it was said, where a person already having insurance whiles a renewal, a notice to renew if made to the proper officer and not rejected, is ortifence sufficient even if the policy is not delivered, but a transient person merely giving an order to a director (who has no power to bind the campany) in the street, is not by law or custom an insurance.

The Court considered that the plaintiff, if he wished to communicate the insurance, was bound to call at the office and attend to it, and not baying done so, there was no locaurance and the company are not liable. Judgment for defendant. For plaintiff, Mesars, Laroque & Harrison; for defendant, Mr. A. K. Hadley.

SUPREME COURT—SPECIAL TERM.—Before Judge Roossystel.

DECISIOS—TRUST ESTATE.

John C. Cruger and Eugene Cruger agst. Issae Jones and others.

Bill to determine the validity and construction of a marriage settlement of the late Mrs. Cruger, (wife of plaintiff, J. C. C., and mother of plaintiff Eugene C. abova.) in which her brother, Mr. Issae Jones defendant, was appointed one of the trustees. The trust provides that the rents and profits of the estate shall be paid to the husband, for the support of himself and maintenance and education of the children in a suitable manner, and at his death accure to such children as may be living at the time, and thence to the grandchildren, as the Court supposes it to mean. One (and the principal) object of the present bill is for leave to morigage the trust promises for building purposes—the power as to which the trustees are in doubt. The Court intimated that as the trust could only extend for two lives, that is, Mrs. Cruger herself, who is decessed, and her husband, the son, who is the only child and now of full age, is entitled tora fee in the estate, and, ordinarily, subject to his father's life estate there would be no difficulty in band his father effecting a mortgage; but by the terms of the trust, which the Statute of, Tiusta (397) requires to be implicitly carried out, it cannot be done.

The Court thinks, however, an arrangement might be made, considerat with the trust, where the parties are agreed, (the law as to trusts not allowing a devisition from the trust even where the parties do agree to change it, whereby Mr. Cruger, the father, could give a judgment lien for the surplus of the existe own a maintenance for himself and children, &c., being, say, to the value of hair the estate.

The Judge also remarked that the statute as to trust is imperfect and contradictory, one part providing that they shall be a lien and sucher that the property under a trust shall not be taken on execution. The cause of it was that two different members of the Legislature drew it up.

Court.

The Judge said he would be willing to do so, and his opinion always has been that the Lexislature which makes a law has power to pass another modifying or changing the general law to suit, where it is just and proper, a particular case, and he expressed such an opinion, but it has been criticised in some

quarters.

An order, the Judge said, will be entered by the Court as requested by counsel.
